Re: VOX

Dear Peter:

We have been a VOX user for over 10 years. I would like to take this opportunity to comment on how we use VOX and our success with the product

Astral Media Radio owns and operates 16 radio stations in the province of Quebec. 14 of our stations share 8 different VOX systems fully integrated with our Norstar telephone systems.

The VOX system gives us the flexibility to customize menus and to tailor the system for our needs. This flexibility, is the major reason Astral Media chose VOX over other alternatives.

All of our systems have given us extremely reliable service for all these years with very little maintenance. This truly reflects the quality of your software.

Sincerely,

Robert Latreille
General Manager, Engineering, IT and MIS.
